

Scorpion Robot Vision Starter Kit

The perfect introduction for jump-starting your own Vision System - includes Scorpion Vision Software , a Sony XCD-V50 (CR) black & white or colour camera and two days training

The Scorpion Robot Vision Starter Kit – approved by Sony, contains everything you need for bringing your Scorpion Robot Vision project to life. The kit includes a Scorpion Enterprise software license combined with the new high quality Sony XCD-V50 (CR) camera (VGA resolution) and a 2 days training course where you learn how to use Scorpion Vision Software®.

A standard and configurable user interface paired with innovative and easy-to-use and robust imaging tools quickly enable you to plan, implement and test complete robot vision systems ready to communicate with robots or PLCs. Scorpion works with robots from ABB, Motoman, Bosch Rexroth and more.

The Sony approved Scorpion Robot Vision Starter Kit consists of the following items:
